Listing Information

Fill in your list price. You need not fill in list date and expire date. They will depend on when the visual inspection is scheduled. Your property cannot be listed before the visual inspection is complete.

Location

Skip the first two fields labeled "location" and "other marketing area." Fill in the rest taking care not to exceed 100 characters including spaces for the directions.

Listing Broker Information

You need only enter the commission for subagent and buyer agent. There will be either a subagent or a buyer agent who brings the buyer. Not both. A subagent does not have a buyer agency agreement with their buyer and technically works for the seller.

All the other checkboxes are standard. Leave them blank. They will be filled out by the broker.

Land Description

Fill in all boxes. For Price/SqFeet use your list price divided by total square feet.

If you don't know your predominate section number you should be able to get it from your city assessor or zoning department.

Assessment & Taxes

Fill in all the fields.

Schools/Owner/Builder

Fill in the unshaded boxes. Shaded boxes may be filled in if desired.

Lot Description

Fill in all the unshaded boxes. Shaded boxes may be filled in if desired.

MLS Remarks

You must stay at or below 512 characters including spaces. To count your characters copy and paste your remarks into this form: <http://www.fsbomad.com/character-count.asp>.
